# Bitcoin as an Online Payment Option

June 13, Friday, 7 PM

 e-Commerce  
\*\*\*\*\* BOOT CAMP

Janette Toral

<http://www.digitalfilipino.com>

# Bitcoin

- Virtual currency
- Has no central authority managing it.
- Payment system

# Where to get Bitcoin in the Philippines

- [Coins.ph](https://coins.ph)
- [Coinxchange.ph](https://coinxchange.ph)
- [Bitmarket.ph](https://bitmarket.ph)
- More trading places
  - [localbitcoins.com](https://localbitcoins.com)

# Coinxchange.ph

## Security first

We take a security first approach to protecting your bitcoin against theft or loss. The safety of your bitcoin is the top focus in everything we do.

### Two factor authentication

We offer two factor authentication and you can set it to be required for significant actions involving your account.

### Offline storage

The majority of the bitcoin used on this site is stored elsewhere to protect against theft or loss. "Cold storage" bitcoin are kept in paper wallets stored in bank vaults.

### Encryption

The wallets and private keys used on Coinxchange are encrypted with AES-256 encryption. In addition, sensitive data like account numbers and balances are also encrypted.

# Coinxchange.ph

## Buy and Use Bitcoin. Made easy.

Coinxchange's integrated wallet lets you buy and use bitcoin easily.

### Total transparency

Once you make a deposit, you can buy or sell whenever you choose. You never have to guess about the price you'll receive or when the transaction will happen.

You're in control.

Learn about [how it works](#).

### Accept bitcoin anytime

You can accept bitcoin from anyone, anywhere in the world. You'll automatically be notified when you receive a bitcoin transfer.

### Remittances and transfers

Sending funds internationally is hard and expensive. Bitcoin makes it easy for you to receive money and bitcoin transfers cost very little.

Coinxchange provides same-day deposits to major Philippine banks.

## Instructions

1. Please provide all required fields in the form (to the right). If you don't have a bitcoin wallet address yet, [click here](#) to learn more about setting up a wallet.
2. After submitting an order, you will receive a verification link in your email.
3. Click the verification link to verify your email address. Save this email as you will be needing it later to confirm your deposit.
4. Deposit your cash to the account, per the instructions provided in the verification link.
5. Once you've deposited the cash, save your deposit slip and confirm your payment by visiting the verification link again and following step 2.
6. You're done. If your buy order was submitted and paid for prior to 6PM, you will receive your bitcoins same day. If after 6PM, expect to receive your bitcoin

## Purchase Bitcoins

## My Wallet Be Your Own Bank.

Confused? Read the [Beginners FAQ - How It Works](#)

My Wallet is a free online bitcoin wallet which you can use to make worldwide payments for free. We make paying with bitcoins easy and secure available anywhere on your phone or desktop.

We are not a bank, you retain complete ownership of your Money. We cannot view your balance, see your transactions or make payments on your behalf.

[Create My Free Wallet](#)

Already using Bitcoin? [Import your wallet.](#)

# Remember

- You can lose your money through a virtual currency exchange.
- Virtual wallets can get compromised.
- Non-reversible transaction.
- Fluctuation.
