Proposed Business Name

Applicants who want to reserve a business name are advised to have several alternatives. It is fairly common that first choice cannot be registered because (a) it is already reserved, or (b) it is similar or confusingly similar to an existing business name.

Your name should be descriptive as well as distinctive. We will help you ensure your name is distinctive by looking for similar names that are already registered. Click on the Check Availability button after you finish entering your proposed business name.

If the Business Name Registration System finds your proposed business name available, you can proceed to register the name. We reserve your business name for five (5) days only.
