VAS re-Payment System

The VASP Prepayment System will handle the Automatic collection of VASP fees by the time the e-document is submitted and paid by the client.

This will apply to E-konek VASP fees that are billed separately from the government transaction fees, like AIP, GMS, AEDS (Clark) and e-TAPS. Clients paying the transaction fees through PPA of ASYCUDA and e2m customs will not be covered by this system.

We assure the security of the transaction process and follows E-konek practice that only "good" transactions are to be paid.
